

Core Maca Gold

What?

Core Maca Gold is a *Spagyric** botanical made from Maca Root, which has historically been used to assist with maintaining stamina, normal hormonal balance and decreasing stress..

Why?

Maca is a root native to the Peruvian Andes and thrives at high altitudes. It has been used as an adaptogen – a medicinal food that assists the body to adjust to whatever level of balance it requires at the time. It is reputed to support normal adrenal function, boost energy, and reduce stress. It has also been used to support a balanced hormonal system for both men and women and research shows that it may even increase libido and improve sexual performance. Maca has a rich and full history and was used in Peru for its medicinal and nutritional properties since before the time of the Incas. While the Spanish Conquistadors were living in the Andean region of Peru, they found

this root invaluable. If it weren't for the native peoples recommendation to use maca, the Spanish and their livestock may have been forced out of the area due to the harsh living conditions. History has it that maca was so beneficial that the Conquistadors began demanding payment in maca instead of gold, hence the name **Core Maca Gold**.

How?

As a dietary supplement take 30 drops orally (in water or juice, if desired) twice daily, or as directed by your healthcare professional. Shake well.

Consult your healthcare professional if you are pregnant or nursing.

Ingredients:

Botanical Extract 0.83 mL: Maca Root (*Lepidium meyenii*), Purified Water, Ethanol 20%.

This product is gluten-free.

**Spagyric processing is an ancient and specialized extraction technique that involves separation, purification and reunification of pure raw materials. This process produces a liquid remedy that is concentrated, easy to assimilate and ultra-rich in nutrients.*
