

# Pure Body Clear

## What?

An organic/wildcrafted botanical blend used to gently support normal liver, kidney, lymphatic, and gall bladder function. This product is often paired with **Colon Clear** and other synergistic remedies as a part of **The Opening Channels Program**.

## Why?

Did you know that the liver is one of the largest organs in your body? This incredibly resilient and complex organ performs over 600 functions including aiding in the digestion of fats, proteins, and carbohydrates; storing certain vitamins and minerals; and detoxifying foreign substances such as chemicals, drugs, and excess hormones.

In addition, one of the key functions of the liver is filtering the blood. The liver cleanses and filters over two quarts of blood per minute – that adds up to 2880 quarts of blood per day! So the question is, “When is the last time you cleaned out your filter?” **Pure Body Clear** contains a proprietary blend of herbs such as Artichoke, Dandelion, Milk Thistle, and Turmeric, which have been safely used for centuries to maintain and nourish the liver. As with all our organs, the liver is closely connected with other organs such as the kidneys, gall bladder, and lymphatic system; additional herbs such as Barberry

Root, Gentian, Schizandra Berry, and Yellow Dock have been included to provide well-rounded support for these systems.

## How?

As a dietary supplement, take 1-3 capsules once or twice daily or as directed by your healthcare professional.

Consult your healthcare professional if you are pregnant or nursing.
