

Primary Digest

PROFESSIONAL FORMULATION

Item # VP-PG
90 tablets per bottle
Dietary Supplement

- Gastro-Digestive Enzyme formula
- Assists in the breakdown of food
- Can help to alleviate impaired digestive functions that can lead to diarrhea, indigestion and heartburn

Overview

Betaine hydrochloride is a form of hydrochloric acid that is derived from beets. It is commonly used as a digestive enzyme by individuals who do not produce adequate levels of gastric hydrochloric acid for protein digestion. It has been estimated that approximately 30% of elderly adults have insufficient production of hydrochloric acid from the parietal cells in the lining of the stomach. The clinical terms for people with limited or a lack of hydrochloric acid secretion are hypochlorhydria and achlorhydria. Insufficient production of gastric hydrochloric acid can also negatively influence the body's ability to absorb many nutrients. Consequently, low levels of hydrochloric acid can be a contributing factor in numerous other clinical conditions such as asthma, atherosclerosis, candida yeast infections, gastritis, and rheumatoid arthritis. Although betaine hydrochloride may be a beneficial therapeutic component in treatment protocols for these conditions, scientific studies with betaine HCl have not been conducted in these areas.

Vinco's Primary Digest

Vinco's Primary Digest is a digestive aid designed to enhance the breakdown and assimilation of proteins, carbohydrates and fats.

Physiology

Pepsin - The chief digestive function of the stomach is the partial digestion of protein. Gastric pepsin is produced as the inactive zymogen, pepsinogen, which is activated to pepsin by the action of HCl, and autocatalytically by itself. The enzyme transforms native protein into proteoses and peptones.

Directions for use:

As a dietary supplement for adults and children twelve or more years of age, take one tablet three times per day, or as directed by a qualified healthcare provider.

| Supplement Facts | Serving Size: 1 Tablet | Amount per | % DV |
|------------------|----------------------------|------------|------|
| | Servings per Container: 90 | Serving | |
| | Betaine (HCl) | 165 mg | * |
| | L-glutamic Acid (HCl) | 165 mg | * |
| | Pancreatin (8X) | 35 mg | * |
| | Papain | 70 mg | * |
| | Pepsin (10,000X) | 25 mg | * |
| | Gentiana Root Powder | 20 mg | * |
| | Oxbile | 20 mg | * |

*Daily Value (DV) not established
DV is based on a 2,000 calorie diet.

Other Ingredients: Magnesium Stearate.
